Excerpt from Current Railway Problems Every student of affairs is aware that the transportation questions now foremost in discussion widely differ from those that were paramount even a few years ago. The admitted abuses in railway administration of the past generation have mostly, many of them, entirely disappeared. The current problems more nearly concern the fundamental status of the railways and their primary relations with the public. To their solution is necessary earnest, sincere and deliberate consideration. The articles collected in this book by the Railway Age Gazette were written by its Western Editorial Manager. For the permission to reproduce that on The Valuation of Railways, and that entitled Shall Railway Profits be Limited? thanks are due to the Journal of Political Economy.
