By F W Fitzsimons

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The House Fly: A Slayer of Men For some years it has been common knowledge to men of science that the insect known to everybody as the House Fly is a carrier of the microbes of infectious diseases, and that through its agency disease germs are conveyed from sick to healthy people in dwellings, as well as from house to house. Entomologists, Zoologists, and Bacteriologists during the past few years have specially studied this insect, which has, in the past, been regarded merely as a nuisance by reason of its obtrusiveness. The outcome of these researches is that, we now know the House Fly to be the principal carrier of the germs of infectious diseases from the sick to the healthy. In the United States of America most of the governing bodies are now alive to the necessity of taking drastic measures to diminish the numbers of these terrible flies, and also to the extreme urgency of educating public opinion on the subject. Diseases which afflict humanity would be reduced by at least two-thirds if...
