Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Big Bang theory is the prevailing theory of the origin of the universe and its development. Its main argument is so-called galaxies escape. The analysis of the light from galaxies shows that the spectral lines are shifted to the red part of the spectrum. Based on the Doppler effect interpret this to mean that most of galaxies receding from the observer. It is said that in the past was galaxies closer together. If we goes even further back in time, this means that the entire universe was compressed into a point that exploded. There we have Big Bang. The author has published an article in the topic above . But the article was totally sawn by an opponent. The author would like this letter to defend themselves and want to show their duel for everyone to judge what is right or wrong, or better said how much it is right and how much is it wrong!.
