

The Ultimate DIY Geek Toys Guide: Make Your Own Light Saber + 74 Other Amazing Tech Projects

By Popular, Science

Weldon Owen, 2013. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Who wouldn't want to invent a robot that makes and serves you cocktails, or to build and play a life-sized Operation game? Not to mention creating and wielding your own DIY light saber. Now readers can make their own versions of these nerdtastic crafts (along with 100 more crazy and cool tech projects) with the helpful, handy, and often hilarious "Geek Toys." There's a new movement afoot--a whole generation of makers and tech-savvy innovators who excel at making wild and fascinating projects using electronics and found materials. In "Geek Toys," you get a collection of these amazing ideas from the DIY masters at "Popular Science" magazine--from a theremin you can make for under \$15 to a motorized skateboard, from an epic potato gun to an LED lighter you can wave during rock-concert power ballads. It's never been a better time to be a geek. Activities include: Kit Out the Ultimate All-in-One Brewing Machine Tap a Melon Keg Break into Your Beer Install a Shower Beer Caddy Chill Your Beer Really, Really Fast Disguise Your Brew Reuse Those Red Party Cups Meet the Drink-Slinging...

Reviews

This book is definitely worth acquiring. I have gone through and so I am certain that I will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.
