Worldwide, the disorder affects roughly 5-7 of kids under the age of 18. In the United States, that number is north of 11 . As the disorder continues to plague children, adolescents and adults at every level, the questions grow louder. What is causing this? Are the diagnoses too prevalent? Is there a significant upswing in misdiagnoses and dual diagnoses? Are modern societies becoming too heavily medicated? And most importantly, with our incredible advances in science and medicine, what are we going to do about it? Natural Treatment. Effective Treatment. Drug-Free Treatment. If you, your loved one or your child suffers from ADHD, it's time to get informed. Learn the signs and symptoms, understand the causes, and dispel the myths. Attention Deficit Hyperactivity Disorder can be treated without drugs. There are many highly effective coping mechanisms, and they are all natural--and safer--solutions. Before stimulants such as Ritalin or Adderall are prescribed, know the facts. ADHD EXPLAINED Learn everything you need to know. Take charge of the disorder: understand the assessment criteria, make the lifestyle changes, master the nutrition and diet, and save yourself the heartache, and headache, of a life of wasted potential. Don't be fooled by the myths; don't allow false information about the symptoms, causes, and treatment of ADHD to prevent you from an effective understanding! You owe it to yourself and to your child to stay ahead of the curve! Truth be told, the long-term effects of drugs are still unknown. In many cases, their negative effects actually outweigh the symptoms of the disorder. This is why natural treatment options for those symptoms are...
