OCLC Number: (OCoLC)421114612 Subject: Ex-convicts -- Services for -- United States. Excerpt: . . . 12 R4W Final Research Report Page participated in a religious program while in prison, which is roughly consistent with the percentage who identify themselves as religious. Almost two thirds also report participating in a work program of some kind, and over half report participating in an education program. Less than half received drug or alcohol treatment or counseling, though this also appears consistent with the percentage of participants who reported a potential need for these sorts of programs. Table 10: Services Received While in Prison Percent of R4W Participants Who Received . . . N 3, 700 Work program 63 Mentoring 28 Job training 40 Drug alcohol treat. 45 Classes on job searches 47 Religious 67 programs Education program 54 Counseling 39 Support group 37 Any program 89 Conclusion Overall, sites were successful in enrolling participants from the target population of 18-to 34-year-old felons with a high chance of rearrest. R4W participants differ somewhat from the general population of ex-offenders. They are younger, more likely to be African American, a bit more likely to be male and on average have a higher level of education. Their extensive criminal history indicates that they will not find it easy to obtain jobs. However, they do bring some assets: Some appear to have supportive relationships with their family, some may be able to draw on their religious faith and the support of a congregation, and most have some experience working full time. This item ships from La Vergne,TN. Paperback.
